ANOTHER QUIET DAY ON 'CHANGE, BUT FLUCTUATIONS WERE WIDE.

Sugar Trust Led the Market with Sales of Only 10,000-Local Markets Unsatisfactory.

At New York, yesterday, money on call was easy at 1 per cent.

Prime mercantile paper, 2%@31/2 per cent. Sterling exchange was dull and easier, with actual business in bankers' bills at \$4.87%@4.87% for demand and at \$4.86%@ 4.86% for sixty days; posted rates, \$4.871/2@ 4.88 and \$4.881/2@4.89; commercial bills, \$4.85%. Silver certificates, 63%c bid. Bar silver closed at 63%c per ounce; Mexican dollars,

51c; at London bar silver closed at 291/6d. Total sales of stocks were \$9,494 shares, including: American Cotton Oil, 2,600; American Sugar, 10,500; Burlington, 4,400; Chicago Gas, 6,200; Delaware, Lackawanna & Western, 3,900; Delaware & Hudson, 3,500; General Electric, 2,400; New Jersey Central, 2,700; Northwest, 6,300; Reading, 9,300; St.

Paul, 8,100.

Although the transactions on the Stock Exchange yesterday were a trifle larger than on Wednesday the trading was dull and uninteresting, except in the coal stocks, which were unusually active and heavy, owing to alleged friction among the several companies and reported overproduction. This led to brisk selling during the morning, which resulted in a decline of 5 morning, which resulted in a decline of 5 per cent. in Delaware & Hudson, 3% in New Jersey Central, 3% in Delaware, Lackawanna & Western and 1 per cent. in Reading. On the announcement of the advance in prices scheduled by the sales agents a recovery of 2% was made in Delaware & Hudson, 2 in New Jersey Central, 1% in Delaware, Lackawanna & Western and % in Reading. In the later dealings the hears in Reading. In the later dealings the bears returned the attack, putting out the claim that the output is unrestricted and de-stroys any benefit that might accrue to the coal trade by the advance in rates.

A reaction of 2 per cent. in New Jersey
Central followed the raid, the other coalers named receding 1/0%, and Lackawanna & June, \$1 Western selling off 1 per cent., to 14. The general market opened fairly, but the short interest, taking advantage of the depression in the coalers, sold down the leading shares and Anthrac some of the specialties, causing a decline the losses ranging from 1/4 to 2% and being most marked in Wheeling & Lake Erie preferred, Lake Shore and Cotton Oil.

After midday speculation became firmer in tone and tendency, except in a few in-stances, being upward to the close, when a recovery of 1/2 had been recorded, the latter in Lake Shore. In the final dealings some few stocks fell off a small fraction, but the general tone of speculation was firmer at the close. Compared with Wednesday's final figures prices are in the main lower, the more important declines being New Jersey Central, 3½; Delaware & Hudson, 3½; Wheeling & Lake Erie, 2½; Delaware & Lackawanna, 2; Reading, Susquehanna & Western, and Colorado Fuel and Iron, 1; New York Central and Lake Shore, 3; Pullman and Cotton Oil, 3, and Northwest, C. C. & St. Louis and Cordage west, C., C., C. & St. Louis and Cordage, %. Among the few stocks which show ad-vances on the day are Pittsburg & Western preferred, 1½, and Cotton Oil preferred, 1, Rock Island, Hocking Valley, Tobacco and Lead preferred, ½. Burlington, Atchison, Distilling and Missouri Pacific are unchanged. New Jersey Central was offered at 102 and sold at

214, against 10414 regular. The bond market was heavy in the early trading in sympathy with the share specula-tion. In the late session a general recovery was made the market closing in good tone. The sales for the day were \$923,000. The more important changes are as follows:
Advances—St. Paul & Minneapolis firsts
and St. Louis & San Francisco consol ours, 314; Chicago, St. Louis & New Or-& St. Louis, Pacific extension firsts, 2½:
Iowa City and Western firsts, 2; Ohio
Southern firsts, 1½; Southern Pacific, of
California, consol fives, 1½, and Louisville
& Nashville, 1 per cent. Declines—Erle second consol trust receipts, 14; Louisville & New Albany consol sixes, 14, and Missouri Pacific consol sixes and Ohio Southern

Government bonds were strong and higher. State bonds were inactive and railroad The following table, prepared by James E. Berry, Room 16, Board of Trade, shows the range of quotations:

ings, \$1,880,060,

LOCAL GRAIN AND PRODUCE. Little New in the Local Situation and

At Cincinnati-Money, 3@6 per cent. Clear-

Few Changes in Values. A call at the different markets yesterday failed to find anything of importance to note. On the wholesale streets and on Commission row everybody says the weather is too mild to make business active. Fruits and vegetables are decaying badly, especially apples, as a large per cent. of the stock carried is of an inferior quality. Oranges are in better supply, but prices are still well held. Irish potatoes are in large supply, but the commission men are not letting down the prices to effect sales. Sweet potatoes are really a drug on the market. Receipts of poultry are large and prices weak. The same remark will apply to butter. Eggs are firm at quotations. Owing to the warm weather an unusually large per cent. for October of the eggs arriving are poor. Many are thrown out when candled. The provision market is dull. Every retail merchant looks for lower prices, and will not purchase more than two or three days' supply.

There was a little more activity on the local grain market yesterday, bids ruling as follows:

Wheat-No. 2 red, 481/2c; No. 3 red, 44c; Wagon wheat, 48c. Corn-No. 1 white, 52c; No. 2 white, 52c;

AMERICAN MANUFACTURES.

Expositions to Be Held in Central and South American Republics.

To the Editor of the Indianapolis Journal: I bespeak the influence and good offices of your paper in the interests of a broader market for the output of the machine shops and manufacturing establishments of the United States. The severe conditions under which our manufacturers have labored for the past twelve months would have been lightened to a considerable extent had they in the past taken the pains that European manufacturers have taken to establish trade relations with Mexico, Central and South America. The Europeans have devoted every energy to ingratiate themselves with the buyers in these countries, while our manufacturers have been satisfled with very indifferent efforts.

working machinery makers, the Lodge & Davis Machine Tool Company, ironworking machinery makers, and several others of the leading manufacturers of Cincinnati, O., have been sending Spanish-speaking representatives for the past three years to these countries. They have invariably secured large and remunerative orders, proving conclusively that the business is there and can be obtained.

It is true that the rapid development of our own country has heretofore called for nearly the entire output of our manufactur-ing establishments, but the recent past, and, in fact, the present condition of the machinery trade, prove that our foundries and machine shops have a greater capacity than domestic consumption demands, and our manufacturers are on an active outlook for new trade fields. It has not been a lack of enterprise, but a lack of necessity, that has until now deterred their efforts to win the trade of our sister republics. European machinery and equipment of a very inferior grade is being sold in large quantities to the miners, manufacturers and developers of the Spanish-American republics. Europeans are getting good prices for this machinery, prices that our manufacturers would jump at; but, as matters

stand, we have no means of getting at

this trade. It has been suggested that the conditions now deterring our commercial intercourse with these countries could be greatly relieved by a series of international exposi-tions, beginning, say, with an exposition to be held in the City of Mexico, and followed by others in the South American republics. This, however, to be preceded by the restoration of our reciprocity treaties, rescincied by our last Congress, as very little foreign business can be done unless there treatles are restored. The plan upon which these expositions could be held to mutual advantage would be that the governments of these different countries would make an elaborate display of their mineral and other resources, together with a complete exhibit of all interesting features of their country, the manufacturers of the United States to co-operate with the different governments by making a magnificent dis-play of machinery and other manufactured products adaptable to the needs of the dif-

erent countries. These suggestions have met with un-qualified indorsement from all interested parties. Hundreds of the largest manufacturing concerns in the United States have expressed their willingness to co-operate, and President Diaz has written his hearty approval of the plan. A movement is now on foot to organize all interested manufacturers in order that they may work in unison, thus guaranteeing the very best results. To this end it has been suggested that the manufacturers meet in some convenient city for the purpose of perfect-ing such organization. From present indi-cations it is evident that this meeting of manufacturers will take place at an early day, and that it will be an important convention. It seems to me that Cincinnati is pre-eminently the proper place for this meeting. Our city is the center of the principal manufacturing district of the United States, and, besides this, there 's no other city that could be so easily reached by delegates from the South, 1 therefore suggest that the convention be held in Cincinnati, and that our manufacturers take suitable steps to accom-T. P. EGAN. President of J. A. Fay & Egan Company.

Cincinnati, O., Oct. 25. Jones and His Snake in Jail.

Louisville Courier-Journal. A clammy cow snake occupies a conspicuous place at the county jall, substantiating a strange snake story connected with one of the moonshiners now confined there for beating Uncle Sam out of his tax.

About two weeks ago John Jones, of Magoffin county, was brought to the city and lodged in fail on the charge of moonshining. He carried a leather satchel, which he was compelled to leave in the office of the jail. After being imprisoned for several hours Jones called one of the turnkeys to the bars and asked him to please feed "that snake that was in his satchel." This surprising statement proved to be true, for the satchel really contained a live snake, which Jones called "Old Bob" in a very affectionate tone. The snake was fed and placed in a box where it could be seen by the visitors. Jones handled it without fear, and said that it had been his pet for a long time. He was recently fined \$100 and given a sentence of sixty days for making moonshine whisky. He asks every day about how "Old Bob" is getting along, and will take him back home when he gets

Harrison's Broad View. Washington Post.

The Republic has had no President or ex-President so gifted in speech-making as General Harrison. He demonstrated great ability as a debater during his term in the Senate. In the campaign of 1888 he astonished the country by his readiness and tact in scores of short addresses. In his trip to California, while President, he again surprised the people by a series of short speeches that were unprecedented and altogether admirable. One of the best of his recent utterances was this, at Clayton, last week: "I do not doubt that the great mass of our fellow-citizens of all political parties desire the general good of the country and the prosperity of the peo-ple." That is the spirit which should dominate in all campaign oratory. We have no party that is lacking in patriotism. All parties aim at the same end-the good of the country. General Harrison has set a wholesome example in this profession of faith in the honesty and patriotism of his opponents.

Trying to Please.

Washington Star. "Will you sing, Mr. Smithers?"
"Certainly," replied the obliging young man, "what style of composition do you prefer?" "Something lofty in sentiment."

He stood silent in thought for a minute and then, low and tremulous, there broke upon the air the strains of "Up in a Bal-The Sting Out of It.

Detroit Tribune.

"Pray give yourself no uneasiness on that score," urged the kindly despot. "The affair will be officially gazetted as an operation for appendicitis."

"But the disgrace my family will suffer," protested the doomed man, "because of my death by the ax."

Building Permits. Brooks Oil Company, frame sheds, 488 East Michigan street, \$400. Fred Prange, repair frame house, 280 South Illinois street, \$200. Nails and Horseshoes. Joshua Churchill, frame house, Martin-Steel cut nails, \$1.25; wire nails, \$1.25 rates; dale avenue, \$600.

OATS HAD THE CALL

MORE ACTIVE AT CHICAGO THAN EITHER CORN OR WHEAT.

Heavy Selling Caused an Unusual Decline Which Was Mostly Recovered Before the Close.

CHICAGO, Oct. 25 .- The Board of Trade markets were very dull to-day with the exception of oats. That market woke up, and under heavy selling for Irwin, of Pittsburg, declined sharply, rallying later on covering by shorts and closing, but %c lower for May. December wheat closed 4c lower, May corn 1/3c lower and provision slightly higher for pork.

Business in wheat to-day was very dull and a subject of general complaint. The discouraging cable news and the heavy receipts in the Northwest were sufficiently bearish to keep prices under yesterday's closing values. The expectation of a cold wave and talk of drought in the winter wheat belt prevented a marked decline. The day's fluctuations were narrow, 52% being the highest price realized for December, and 521/4c the lowest, with 521/2c the trading price at the close.

Corn was dull and for the most part inclined to droop, although its weakness was not very pronounced. There was some inquiry for round lots for shipment, and at least 100,000 bushels taken. Comparative firmness was imparted in the latter part of the session by some buying, which was reported to be covering of shorts for account of the Pittsburg man whose selling out of long oats was the feature of the latter market. Receipts were 117 cars, and estimates for to-morrow are 160 cars. Liverpool advices said that stocks of American corn there were exhausted. May opened and closed at 49%c, its fluctuations being between 49%c and 49%c. To-day's session in the oats market was active, and a large amount of stuff changed

hands. There was heavy long selling for G. W. Irwin, a Pittsburg plunger. It was said that about 400,000 or 500,000 bushels of oats were disposed of on his account, principally through McPherson, Harry Parker and Bart-lett. Frazier & Co. The last mentioned firm was also reported to have sold considerable stuff on the account of an oatmeal trust. Not only was there free selling, but a generally good disposition to buy on the part of the shorts, and but for this the decline would have been much greater. Jackson Bros. bought over 200,000 bushels on the decline, which they had previously been short for customers. The rest of the buying was scattered, some among commission houses and some by local parties. This market was far more active than any other on the floor. May started at from 321/se to 321/se, sold down to 31/se, and at noon was selling at 31%c. Towards the close selling was not so free, and the market advanced May closing at 321%c. Provisions were very dull and trading of the lightest. The open interests in the market were evidently inclined to await further developments before disturbing their long or short lines. Fluctuations were insignificant, and in the end prices were not materially changed as compared with current values twenty-four hours previous. Pork is 5c higher, lard .05c lower and ribs unchanged. Hog receipts were 32,000 to-day, and 26,000 are estimated for to-morrow. Freights-Corn and oats to Buffalo, %c, or

%c less than the rate in force for some time. Oats to Collingwood, 1c. Corn to Point Edward, 14c. Estimates for Friday: Wheat, 85 cars; corn. 160 cars; oats, 125 cars; hogs, 26,000.

Leading futures ranged as follows: Open- High- Low- Clos-Articles. ing. est. est. Wheat-Oct 521/2 571/2 497/8 Dec May Corn-Oct Nov Dec 49% 271/2 277/4 321/4 May Oats-Oct Nov May Pork-Jan\$11.80 \$11.90 \$11.80 Lard-Oct 7.00 Jan 6.80 7.00 6.871/2 6.821 Jan Ribs-Oct 6.35 6.371 Jan 5.95 6.00

Turpentine steady.

SAVANNAH, Ga., Oct. 25.—Spirits of tur-pentine firm at 261/2c; sales, 160 brls. Rosin firm at \$1.05. NEW YORK, Oct. 25.-It has been a very quiet market for all classes of goods, large-

ly owing to a steady rain, interrupting the demand for necessities. Of staple and semistaple cottons there was a fair quota of business; other demand for current wants v. as light. Spring specialties, such as white goods, printed fabrics and fancy dress goods, had attention, and of the first some business was laid out. Printing cloths very quiet and steady at 2%c, with fair sales

Elsewhere.

CHICAGO, Oct. 25 .- Good to choice cattle were in good request and again showed an advancing tendency. There was a small supply of cattle in that class and they were all picked up early in the day at a slight advance. In other branches of the market there was steadiness. The receipts from all sources did not reach 13,000 head. This is a small supply for a Thursday, and it was that fact more than any strength in the demand that induced the firmer feel-ing. Exporters were unable to find enough suitable cattle to fill their orders, there being only about 7,500 natives of all grades and only a small part of that number grading better than medium. Sales of natives were on a basis of \$1@3.50 for poor to extra cows, and \$2.75@6.15 for dressed beef

and shipping steers. There was a well-sustained demand for stockers and feeders at \$263.50. The run of Westerns was estimated at 3,000, and they were firm at \$1.50@4.50. Of Texans there were 2,000, and prices were strong at \$1.50@3.25 for poor to choice. The close was firm.

The situation in the hog market was essentially unchanged. There was a continuance of large receipts of rather poor quality, and a continuance of the weakness that has been a feature of the market for lo, these many days. Shippers appeared indifferent, and as there was little of strength in the packing demand, prices slid down another notch. They were quite 500 10c lower than at the close of yesterday's trading and very weak all day. Packers bought very fair hogs around \$4.50% and there was nothing on sale for which better than \$4.75 could be obtained. That figure was paid in one or two instances, and there were scattering sales at \$1.70, but almost the entire 39,000 head, which constituted the day's supply, went out of sales-men's hands below \$4.70-from \$4.50 to \$4.65 buying the great bulk. Light weights sold largely at \$4.35@4.55, and \$4.50@4.65 took most of the medium and heavy. The fresh arrivals were estimated at 30,000, making 112,470 for the last four days, against 111,912 for the same time last week.

In sheep the fact that the receipts for the last few days have been comparatively light has enabled sellers to reduce the accumulations and the market therefore is gradually working into a firmer position, though as yet there has been very little actual advance on the low prices ruling at the close of last week. There was a moderate demand to-day, and the feeling was firm at \$2.5063 for good to choice, and at \$1.50@2 for common to fair. Poor stuff was not sought for at 75c@\$1.25. The lamb market was firm at \$1.50@4 for poor to ex-

Receipts-Cattle, 12,500; calves, 600; hogs, 30,000; sheep, 11,000. 30,000; sheep, 11,000.
